Professional Summary

AWS Certified Solutions Architect – Associate and Computer Science Engineering student with hands-on experience in AWS, cloud architecture, Terraform, and DevOps. Skilled in Linux, Bash scripting, Git, and CI/CD, seeking an entry-level Cloud/DevOps opportunities.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2027	BTech - Computer Science and Engineering	Mother Theresa Institute of Engineering and Technology	8.3 / 10
2023	Intermediate (Class XII)	Mother Theresa Junior College	91%
2021	Matriculate (Class X)	Sri Sarada EMH School	95%

Skills and Expertise

- **Cloud:** AWS | Oracle Cloud Infrastructure (OCI)
- **DevOps & Tools:** Terraform | Git | GitHub Actions | Bash Scripting
- **Programming:** Java | SQL | HTML | CSS | JavaScript
- **Operating Systems:** Linux (Ubuntu) | Windows
- **Productivity & Collaboration:** Notion | Google Workspace | Microsoft Office | Canva | Adobe Express
- **Professional & Analytical Skills:** Technical Communication | Team Collaboration | Analytical Thinking | Documentation

Certifications

- **AWS Certified Solutions Architect Associate (SAA-C03)** - September 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** - May 2026
- **Oracle Cloud Infrastructure Certified Foundations Associate** - October 2025

Projects

Highly Available and Scalable Three-Tier Notes Sharing Application [GitHub Link](#) May 2026

- Developed a **three-tier** notes sharing web application with a frontend, backend, and database.
- Deployed the application on AWS using **EC2, RDS, Amazon VPC, Security Groups, Elastic Load Balancer, and Auto Scaling** to provide **secure, highly available, fault-tolerant, and scalable infrastructure**.
- Enabled users to upload, search, and manage notes through an intuitive web interface.

AWS Services Used: Amazon EC2, Amazon RDS, Amazon VPC, Security Groups, Elastic Load Balancer (ELB), Auto Scaling, IAM.

Serverless Event Notification System on AWS [GitHub Link](#) June 2026

- Developed a serverless event announcement system using **AWS Lambda, Amazon API Gateway, and Amazon S3**.
- Implemented automated email notifications through **Amazon SNS** for event updates and announcements.
- Managed event data storage and processing using **AWS serverless services, enabling a scalable and cost-effective architecture**.

AWS Services Used: AWS Lambda, Amazon API Gateway, Amazon S3, Amazon SNS, IAM Roles & Policies.

Static Web Hosting with Amazon S3 and CloudFront [GitHub Link](#) May 2026

- Developed and deployed a static website using **Amazon S3** for hosting and **Amazon CloudFront** for content delivery.
- **Configured S3 static website hosting, IAM policies, and CloudFront distribution** to enable secure and efficient access.
- Automated website deployments using **GitHub Actions**, enabling continuous integration and delivery (CI/CD).

AWS Services & Tools Used: Amazon S3, Amazon CloudFront, IAM, GitHub & GitHub Actions.

Achievements

Google Cloud Arcade 2024 – Champions Milestone Recognition

- Earned the **Champions Milestone Recognition** in **Google Cloud Arcade 2024** by completing cloud learning challenges and hands-on labs.
