Professional Summary

AWS Certified Solutions Architect – Associate and final-year B.Tech (CSE) student skilled in building scalable, secure AWS solutions, with hands-on experience in serverless architecture, Python, Linux, networking, IAM, SQL/NoSQL databases, and cloud security.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2027	BTech - Computer Science and Engineering	Mother Theresa Institute of Engineering and Technology	8.3 / 10
2023	Intermediate (Class XII)	Mother Theresa Junior College	91%
2021	Matriculate (Class X)	Sri Sarada EMH School	95%

Skills and Expertise

- **AWS Compute & Serverless:** EC2 | Auto Scaling | Lambda | API Gateway
- **AWS Storage & Databases:** S3 | RDS | DynamoDB | Relational & NoSQL Databases
- **AWS Networking & Delivery:** VPC | Public/Private Subnets | Elastic Load Balancing | CloudFront | Security Groups
- **Security & Monitoring:** IAM | Least-Privilege Access | SNS | CloudWatch
- **DevOps & Infrastructure:** Terraform | Infrastructure as Code | GitHub Actions | CI/CD | Git | Bash | Linux
- **Programming & Web:** Python | Java | SQL | JavaScript | HTML | CSS

Certifications

- **AWS Certified Solutions Architect – Associate (SAA-C03)** – Amazon Web Services | September 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** – Amazon Web Services | May 2026
- **Oracle Cloud Infrastructure Certified Foundations Associate** – Oracle | October 2025

Projects

- 1. Cloud-Based ATS Resume Analyzer (Serverless AWS Architecture)** [GitHub Link](#) September 2026
AWS Services & Tools Used: Python, S3, Lambda, DynamoDB, IAM, CloudWatch, Terraform, GitHub Actions, Discord API
 - Built an ATS analyzer that compares multiple resumes against a JD and generates ATS scores, skill gaps and improvement suggestions.
 - Designed a serverless architecture using S3, Lambda, DynamoDB, IAM and CloudWatch, with Terraform and GitHub Actions CI/CD for repeatable deployment.
 - Created a Discord interface to upload a JD and resumes and view ranked ATS results from any device.
- 2. Serverless Event Notification System on AWS** [GitHub Link](#) June 2026
AWS Services Used: AWS Lambda, Amazon API Gateway, Amazon S3, Amazon SNS, IAM Roles & Policies.
 - Developed a serverless event announcement system using **AWS Lambda, Amazon API Gateway**, and **Amazon S3**.
 - Implemented automated email notifications through **Amazon SNS** for event updates and announcements.
 - Managed event data storage and processing using **AWS serverless services, enabling a scalable and cost-effective architecture.**
- 3. Highly Available and Scalable Three-Tier Notes Sharing Application** [GitHub Link](#) May 2026
AWS Services Used: Amazon EC2, Amazon RDS, Amazon VPC, Security Groups, Elastic Load Balancer (ELB), Auto Scaling, IAM.
 - Developed a **three-tier** notes sharing web application with a frontend, backend, and database.
 - Deployed the application on AWS using **EC2, RDS, Amazon VPC, Security Groups, Elastic Load Balancer, and Auto Scaling** to provide **secure, highly available, fault-tolerant, and scalable infrastructure.**
 - Enabled users to upload, search, and manage notes through an intuitive web interface.

Achievements

- Google Cloud Arcade 2024 – Champions Milestone Recognition**
- Earned the **Champions Milestone Recognition** in **Google Cloud Arcade 2024** by completing cloud learning challenges and hands-on labs.

Declaration

- I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
