PROFESSIONAL SUMMARY

AWS Certified Solutions Architect - Associate and Computer Science Engineering student with hands-on experience in AWS, Cloud Architecture, Terraform, and DevOps. Skilled in Linux, Bash Scripting, Git, and CI/CD, seeking an entry-level Cloud/DevOps Opportunities.

SKILLS

- Cloud Computing
- DevOps Principles
- Bash Shell Scripting
- Python programming basics
- AWS Cloud Architecture
- Linux
- Java Fundamentals
- SQL and NoSQL databases

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate (SAA-C03)** - Issued by Amazon Web Services (AWS) | September 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** - Issued by Amazon Web Services (AWS) | May 2026
- **Oracle Cloud Infrastructure Certified Foundations Associate** - Issued by Oracle | October 2025

PROJECTS

1. Highly Available & Scalable Three-Tier Notes Sharing Application:

AWS: EC2, RDS, VPC, Security Groups, ELB, Auto Scaling, IAM

- Designed a three-tier AWS architecture with frontend, backend, and database layers using public and private subnets.
- Configured Application Load Balancer and Auto Scaling to improve availability and handle varying workloads.
- Implemented secure access using Security Groups and IAM roles following least-privilege principles.

2. Serverless Event Notification System:

AWS: Lambda, API Gateway, S3, SNS, IAM

- Built a serverless event announcement system using API Gateway, Lambda, S3, and SNS.
- Automated email notifications for event updates using Amazon SNS.
- Applied least-privilege IAM roles and policies to secure AWS resources.

3. Static Website Hosting with S3 and CloudFront (CI/CD):

AWS: S3, CloudFront, IAM; GitHub Actions

- Deployed a static website using Amazon S3 and CloudFront with controlled access to S3 resources.

- Implemented CI/CD using GitHub Actions to automate website deployments.
- Configured IAM policies to secure AWS resources and deployment workflows.

4. Highly Available Serverless Web Application:

AWS: CloudFront, S3, API Gateway, Lambda, DynamoDB, IAM

- Designed a serverless web application using CloudFront, S3, API Gateway, Lambda, and DynamoDB.
- Built a scalable backend using Lambda and DynamoDB without managing servers.
- Secured AWS resources using IAM roles and policies.

EDUCATION

Mother Theresa Institute of Engineering And Technology | BTech

Computer Science and Engineering, Expected in 04/2027

GPA: 8.3 / 10

ACCOMPLISHMENTS

Google Cloud Arcade 2024 – Champions Milestone Recognition

- Earned the Champions Milestone Recognition in Google Cloud Arcade 2024 by completing cloud learning challenges and hands-on labs.
