

Software Developer

Product Engineering Team

EXPERIENCE LEVEL

2 – 5 years

EMPLOYMENT TYPE

Full-time

FUNCTION

Software Engineering

About the Role

We are looking for a Software Developer to design, build, and maintain web applications across the front end and back end. You will work closely with product and design teams to ship features end to end, write maintainable code, and contribute to a fast-moving engineering culture.

Key Responsibilities

- Build responsive front-end interfaces using HTML, CSS, and JavaScript (React preferred)
- Design and develop backend services and REST APIs using Node.js or Python
- Write and optimize SQL/NoSQL database queries and schemas
- Collaborate with product and design teams to translate requirements into working software
- Write unit and integration tests; participate actively in code reviews
- Work within an Agile/Scrum team, participating in sprint planning and stand-ups
- Use Git for version control and collaborate via pull requests
- Debug and resolve production issues, maintaining application performance and uptime

Required Qualifications

- Bachelor's degree in Computer Science or related field
- 2–5 years of professional software development experience
- Proficient in JavaScript, HTML, and CSS
- Hands-on experience with a front-end framework (React preferred)
- Backend development experience in Node.js or Python
- Working knowledge of SQL and at least one NoSQL database
- Experience with Git and collaborative development workflows
- Strong problem-solving skills and attention to detail

Preferred Qualifications

- Experience deploying applications on AWS or another cloud provider
- Familiarity with CI/CD pipelines
- Experience with Docker and container-based deployment
- Exposure to microservices architecture
- Experience writing automated tests (unit, integration, end-to-end)
- Basic familiarity with AI/ML-powered application features

Soft Skills

- Clear written and verbal communication
- Comfortable working in cross-functional, collaborative teams
- Self-motivated with strong ownership of assigned work
- Ability to manage multiple priorities in a fast-paced environment
